GOLDEN STATE PLANT FOOD

NEW! EASIER! MORE EFFECTIVE!

Here is a new plant food that has been developed especially for your roses. One of the greatest forward steps in a feeding program to produce healthier, more vigorous, and more productive plants has been accomplished by the development of foliage nutrients. Foliage feeding enables your plants to absorb food much faster and more completely than any of the old systems. This, of course, produces better foliage, lovelier blooms, with longer and stronger stems. **Golden State Plant Food** makes feeding your roses so much easier, and it is very simple to use. Follow the simple directions which are given on the label, and your plants will be lovelier than ever before.
